Forest of Imagination is a contemporary arts and design event created by Grant Associates, 5x5x5=creativity and local creative industries that reimagines a familiar space to inspire everyone’s creativity and heighten a sense of nature in an urban environment. ‘Future Forest’ transforms Kingsmead Square, the Avon Street corridor and Riverside Park on the River Avon using four ‘Forest fragments’ – Forest canopy, Forest floor, Regeneration Forest and Floating Forest - and explores the importance of including nature and art in Bath’s regeneration project.

Creative, immersive interventions reimagine these areas showing how creativity can help deliver social, environmental regeneration by testing how public space is used and engaging the local community.

Forest of Imagination is open to all and actively inclusive. We invite children, families and people of all ages to explore, make and learn in a creative, intuitive and imaginative way. We have created a pop-up House of Imagination as a creative making space for everyone – come along and play!

Andrew Grant (Grant Associates) and Penny Hay (5x5x5=creativity and Bath Spa University)

“The imagination is what makes us human. It links the body to the mind and to the brain, it lets us think and dream, wonder and remember... it lets us leap out of ourselves into the world.”

David Almond, author and Patron of 5x5x5=creativity

SPONSORS, PARTNERS & COLLABORATORS
